

Jessica is the secretary for Guyana Christian University, and she tells all else she is involved in. She goes with the mission group every trip.

Dear Brother Jerry and Sister Frances,

Warmest greetings go to you in the name of our Lord and Savior Jesus Christ. I hope all is well with you and that you are both in good health and strength. As for me all is well and so is everyone in my family. For some time now I have been sending you correspondence but you apparently are not getting them. I hope this one will get to you safely. I know it would worry you a lot when you do not hear from me. I am sorry for that and I hope that in future I would not have the cause to make you worry.

I would first of all like to extend my Thank you to you for supporting me financially, so that I can be able to do the Lord's work in a more effective way. You have and are always kind to me. If the world was filled with people like you, this world would most certainly be a better place. Thank you once again for making my life a better one.

From the beginning of this year, everything was going just fine. I have and still working along with the children, young people and women. I would also do some visiting to an extent. The children are a real handful and they are so much fun! I love working with them, they are so full of questions. While working with the children, I also encourage some of the young ladies to help me in carrying on the lesson and singing. Out of these young ladies, two have shown interest. These two persons are Rose Mary and Regeanne James; they are the daughters of Brother Marvin and Sister Adlene James. They have been a real encouragement to me since I have been here.

The Women's Class is going fine and are still meeting just after Sunday Worship Service. We have recently finished the series of lessons that was based on the Tongue. According to their comments, they learnt a lot of things that they never thought of before. These dedicated Christian women also encourage me a great lot. They are usually happy to share their past experiences with the younger women of the Congregation. They encourage us to not do the things and make the same mistakes that they made when they were young. I enjoy doing this class although to myself I do not feel qualify enough to be teaching older women than myself but as some of the women would say, "You teach, once we can see it in the Bible and it is true, you just teach us." Well, so far things are going great.

The campaign down in Sand Creek during 7-14 March, 2008 was great although there were some setbacks. There I had the opportunity to teach the Ladies. They were very attentive and I really enjoyed teaching them because they ask a lot of questions. I plan to stay in touch with them until a next time, by the will of God.

As for the school, it is going fine and I really enjoy working along with the student whenever they ask for help. It gives me the opportunity to do extra studies to keep me always ready to give an answer.

The work is certainly a challenge for me, since this is a matter with the souls of people. The scripture is always full of encouragement whenever I am discouraged. (Philippians 4:13) Once again I am thankful to you for letting me have all this wonderful experiences at such a young age. May God continue to richly bless you.

In Christian Love,
Jessica George
